Databases – MySQL

Tools & Technologies - Git, GitHub, Maven, Swagger, Postman

PROFESSIONAL EXPERIENCE

Java FullStack Developer

Aatmia Digital Marketing and Security Pvt Ltd - 2023 JULY – Present

- Worked with Adobe Target to support personalized content delivery and implement A/B testing for enhancing user engagement.
- Assisted in integrating Adobe Analytics to capture user interactions, page views, and business-specific events for performance monitoring.
- Developed and maintained RESTful APIs using Java and Spring Boot for enterprise-scale applications.
- Contributed to backend development of HRMS and Vehicle Management Systems, enabling smooth business operations.
- Worked with Adobe Experience Manager (AEM), including AEM-FED and AEM-EDS, for content management and component integration.
- Collaborated with frontend teams to ensure seamless integration between AEM components and backend APIs.
- Possess working knowledge of HTML, CSS, and JavaScript for UI customization and debugging.
- Assisted in resolving UI-related issues and improving user experience in web application.

PROJECTS

Human Resource Management System (HRMS)

- Implemented backend services for **employee management, attendance tracking, and daily check-ins**.
- Integrated **Adobe Analytics** to track user interactions, page views, and employee engagement across HR modules.
- Developed **approval-based leave workflows** with automated status transitions.
- Applied **role-based access controls** to safeguard sensitive employee data.
- Centralized HR records to ensure consistency and system reliability.
- Customized and maintained frontend components using **AEM-FED** for HR dashboards and UI enhancements

Vehicle Management System

- Designed backend modules for managing **vehicles, drivers, fuel usage, maintenance, trips, and invoices**.
- Integrated **Adobe Target** with AEM components to deliver personalized user experiences based on business requirements.
- Enabled backend-driven insights for **trip monitoring, fuel analysis, and service history tracking**.
- Developed and customized frontend components using **AEM-FED**
- Leveraged **AEM-EDS** for optimized content delivery and performance.

EDUCATION

B.E Electronics and Communication Engineering | 2019 SEP – 2023 JUNE

NPR COLLEGE OF ENGINEERING AND TECHNOLOGY – CGPA – 7.85
